PRESS RELEASE

April 05, 2024

NPE 2024 is the greatest plastics show of the year, and BMG will showcase its new industry-leading plastic & paper thermoforming technologies.

Beaverton, MI (April 05, 2024) – BMG, a global leader in full-service thermoforming packaging and automation technology, is a group of highly skilled companies and personnel that has historically been the leader in the development and manufacturing of industry-changing improvements for the entire thermoforming end-to-end processes. For years, this has benefitted manufacturers of packaging products in several different verticals. BMG continues to engineer innovations that provide their customers with world-class, end-to-end solutions, shorter developmental lead times, and outstanding executional design flexibility.

This year, BMG will take a different approach to their trade show experience at NPE by pushing their all-new BMG brand experience to a separate space off the main floor. This external location, just steps from the main experience, will provide visitors with a more intimate opportunity to take in the entire BMG entity and what it offers to its clientele. Away from the hustle and bustle of the mass show environment, this new interaction allows individuals or groups to gather qualified information and interact with executives and technicians in a visual experience that will entertain and inform.

Get away from the crowd this year and relax as you take in the experience you have been looking for when it comes to BMG and everything it has to offer the thermoforming industry. They felt it was essential to create an environment that would allow potential clients to relax and experience all that BMG has become over the last few years. This more private showcase provides optimum access to learn more about BMG's full-service, end-to-end thermoforming process engineering without interruption from the crowds. BMG's plastic and paper thermoforming technologies will all be available on an interactive 85" screen, and experts will be on hand to help present that information and discuss needs and solutions with anyone who has questions. All of this will be at this year's NPE 2024 at the Orange County Convention Center in Orlando, Florida. This location provides an excellent opportunity to get a first-hand look at all the technologies, platforms, and capabilities, so be sure to stop by the show and visit their room #W232C, Hall E in West Hall, between May 6th–10th. BMG's experts will be available to speak about their extensive line of intuitive thermoforming solutions. BMG continues its efforts to provide world-class end-to-end customer solutions and outstanding executional design flexibility for its customers. They truly understand the importance of minimizing customer downtime, ensuring consistent, measurable results, and the finite process of developing resilient plastic thermoforming processes. That's why they've dedicated themselves to pioneering advanced plastic technologies that not only meet industry standards but exceed them.

As a bonus, you will be able to take a peek at the new patented BMG pizza box solution. This new revelation in pizza transportation is all part of BMG's continued efforts to bring to market improved processes and products for its manufacturing customers. This new advancement will turn the pizza industry upside down. Advancements in technology and new patents like this are what allows BMG to lead the Plastic and paper thermoforming industry to significant improvements in fit characteristics and sustainability, all driven by BMG's engineering process improvements.

BMG is very aware that many customers have requirements for plastic and paper thermoforming, which require extremely accurate and consistent assemblies, minimal waste, increased operator control, incredible energy efficiency, and automation, all of which improve operational excellence and positively affect ROI.

PRESS RELEASE

BMG also invites visitors to take this opportunity to experience its newly released rebranded website and explore its entire product line at this year's NPE Show. Attendees can immerse themselves in the BMG experience through their 85-inch interactive display, which provides a visual tour of everything BMG has to offer. For more information about the 2024 NPE Show and BMG's involvement, visit www.NPE.com.

BMG's new site has been designed to offer the ultimate user-friendly experience with improved navigation and functionality, allowing customers to see the entire product portfolio that BMG has to offer. As part of this launch, they will also showcase their new rebranding efforts that will unify all of their internal corporations and respective disciplines, so clients have access to everything they need with one point of contact. See what it's all about at oneBMG.com.

The NPE Show will also allow BMG to display additional new product offerings for plastic and paper thermoforming innovations you won't want to miss. Stop by their room, #W232C, and they will answer all of your questions about thermoforming, the process, the solutions, and the avenues to travel down to get the best possible outcome for your packaging and automation needs.

"Our goal all along has been to build a cohesive, clear, and concise brand identity and show an environment that supports a unified effort to supply clients with a true one-stop shop for the entire thermoforming process. One that is clear in the minds of our global customer base and free from any confusion. We will be talking to everyone who wants to know about it so we can better explain the how and why of it all," said BMG CCO Jake Kowalewski.

In order to lead an industry, you have to create advancements in technology that allow manufacturers down the line to engineer unique solutions for their customers. Incredible market growth and key market indicators have paved the way for BMG to introduce an enhanced manufacturing process across various sectors, including food, medical, electronics, horticulture, and ancillary packaging. Be sure to visit their booth to explore and learn more about these advancements, which are detailed and showcased comprehensively. Advancements in technology and new patents have led to significant improvements in fit characteristics and sustainability, which are driven by their engineering process improvements.

"Many of our new brand efforts focus on sustainability. One of our main drivers in engineering new manufacturing solutions is to constantly allow for production improvements and sustainable applications to see how we can assist customers in reducing their carbon footprint, address their sustainability concerns for the future, and engineer smarter," said BMG CEO Koben Miceli.

BMG remains steadfast in its dedication to supporting customers seeking thermoforming packaging and automation solutions. With a keen focus on detail, BMG delivers comprehensive end-to-end solutions, prioritizing shorter development timelines, enhanced ROI, reduced operational costs, and unmatched global service commitment.

solutions. With a keen focus on detail, BMG delivers comprehensive end-to-end solutions, prioritizing shorter development timelines, enhanced ROI, reduced operational costs, and unmatched global service commitment.

ABOUT BMG

Headquartered in Beaverton, Michigan, USA. The new BMG is an award-winning thermoforming packaging/automation solutions leader focused on a customer-centric approach. We develop solutions that meet and exceed the unique requirements of each customer's application. BMG is a global organization representing the world's most extensive thermoforming portfolio, with international assistance available 24 hours a day. Operating

in major verticals that include automotive, medical, electronics, horticulture, food, and process automation, we bring to bear on each solution over 50 years of technological experience! BMG operates facilities and offices throughout North America, South America, Europe, the UK, Asia, and the Middle East. **Learn more at oneBMG.com, follow [@wearebmg](https://www.threads.net/@wearebmg) on Threads, follow [@oneBMG](https://www.linkedin.com/company/onebmg) on LinkedIn, and like [@oneBMG](https://www.facebook.com/onebmg) on Facebook.**
